Boost for buyers at Peet Estates

Securing a homesite in a Peet estate has become even more affordable thanks to the Federal Government's First Home Owners Boost – a giant \$21,000 kick start for first homebuyers who build or purchase a newly constructed home.

This new help for first homebuyers makes it even easier and more affordable to enter the property market and build their own home.

Buyers simply need to sign up between 14 October 2008 and 30 June 2009 to be eligible for this extra assistance, which supplements the first home owner schemes already in place at a State and Territory level.

Peet Limited Managing Director and CEO Brendan Gore said the Federal Government's First Home Owners Boost is a good incentive for first homebuyers.

"Affordability is always a key issue for Peet in the planning and development of new estates," he said. "And it's really pleasing to see State and Federal Government measures to help first-home buyers."

"This is a massive boost for first homebuyers who can now turn their dream of owning their own home into reality.

"We'll continue to address the affordability with a range of products and variety of block sizes to meet the needs of the market," said Mr Gore.
